Parents, Webs For Language teaches children how to write a paragraph using fun, easy steps! This set of reproducible webs allows your child to organize and sequence experiences, then describe and discuss them using appropriate language structures.

Presented in two formats, these creative language materials contain:

Forty filled-in webs, each consisting of 4 topic-related categories with 5 items listed per category, plus a topic sentence.
Forty corresponding incomplete webs for your child to fill in as a fun home activity.
A reproducible format sheet to write the paragraph using the webs.

Webs teaches vocabulary, basic concepts, sequencing, categorization, descriptive language, and more! 80 pages. File folder.
